EXPERIENCE ANTARCTICA FROM A NEW PERSPECTIVE

WITH NATIONAL GEOGRAPHIC-LINDBLAD EXPEDITIONS

TRAVEL WITH A WORLD-CLASS TEAM

Voyages are led by passionate expedition teams—naturalists, photographers and cultural specialists who are explorers at heart. National Geographic Experts join select departures, inspiring new perspectives on your surroundings.

TAKE GREAT PHOTOS WITH THE PROS

National Geographic photographers have spent decades traveling the globe, capturing the world's most impactful images. They join every Antarctic expedition—along with a National Geographic-Lindblad Expeditions certified photo instructor—to help travelers hone their camera skills in captivating places.

National Geographic and Lindblad Expeditions are united in a shared mission to take curious travelers deeper into wild and storied places that paint a richer picture of the world.

EXPLORE YOUR WAY EVERY DAY

Itineraries feature a range of immersive activities that bring you into the pages of *National Geographic Magazine*, from kayaking among icebergs to hiking alongside massive glaciers. Each expedition offers excursions for every skill level so that you can explore your way—and at your own pace—every day.

REVEALING UNDERSEA WONDERS

On most departures, an undersea specialist brings your destination's marine wonders to the surface by capturing underwater footage of Antarctica's surprisingly vibrant marine life. During nightly recaps, the specialist interprets fascinating crustaceans, anemones and other creatures, offering insights integral to the story of your destination.

EXPEDITIONS THAT GIVE BACK

Every voyage that sets sail contributes to the preservation of the planet through the Lindblad Expeditions-National Geographic Fund. Your support helps conserve coastal communities and marine habitats—and it funds explorers from the National Geographic Society who are envisioning bold changes for a sustainable future.

All In

Activities and excursions are always included in the voyage price unless otherwise noted.

A LEGACY OF SAFETY AND INNOVATION

TRAVEL WITH THE PIONEERS OF MODERN POLAR EXPLORATION

In 1966, Lars-Eric Lindblad led the first tourist expedition to Antarctica, ushering in a new era of exploration on the White Continent. After chartering vessels for his earliest expeditions, Lindblad built a ship to suit the unique needs of the journey. The *M.S. Lindblad Explorer* featured a reinforced hull that allowed her to penetrate the ice—and to travel deeper into the continent than any other passenger vessel.

The ship launched a rich tradition of innovation in polar discovery that has endured for more than 55 years and set the stage for National Geographic-Lindblad Expeditions to provide the safest and most immersive experience available in Antarctica today.

Choosing your Antarctic voyage

Read this Antarctica how-to guide to learn the six most important questions to ask when booking your voyage to the White Continent.

INNOVATING ANTARCTIC NAVIGATION

In the 55+ years since pioneering Antarctic travel, Lindblad Expeditions has amassed an unrivaled depth of polar expertise. The fleet's survey archive dates to the *Lindblad Explorer* and holds extensive data on safe anchorages along Antarctica's wild shores. To this day, each crew records its routes using satellite positioning and water-depth measurements, mapping out "safe tracks" that take travelers to remote landings no other operator can visit.

VITAL SAFETY FEATURES

The high ice-class ships in the polar fleet are outfitted with safety technologies that far exceed industry requirements for Antarctic travel. In addition to being equipped with the required Global Maritime & Distress Safety System, the ships are outfitted with features like ice radar and searchlights; drones for ice navigation; and an International Association of Antarctica Tour Operators (IAATO) Emergency Response System, developed by Lindblad's own Senior Captain Leif Skog to ensure that all IAATO ships keep in touch daily.

EXPEDITIONS GUIDED BY NATURE

Experienced crews take advantage of varying ice and weather conditions to make landings based on hour-by-hour evaluations. Lindblad Expeditions owns and operates their own ships, with captains and crews that are full-time members of each vessel's veteran expedition team, rather than temporary contractors. This creates a uniquely collaborative culture that allows for flexibility and encourages wide-ranging itineraries. Travelers enjoy adventure-filled days and amazing wildlife sightings—experiences befit for the trip of a lifetime.

THE POLAR FLEET BUILT FOR AWE

The powerful ships in the National Geographic-Lindblad Expeditions polar fleet bring you directly—and safely—into the heart of Antarctica’s icy wilds. Each small, nimble vessel was designed to deliver the finest in polar exploration and is helmed by a veteran “ice master” captain who possesses extensive experience navigating Antarctic waters.

This fusion of advanced technology and unrivaled expertise allows National Geographic-Lindblad Expeditions to stay flexible, go further and ultimately deliver the most ambitious itineraries available at the bottom of the globe.

NATIONAL GEOGRAPHIC ENDURANCE AND NATIONAL GEOGRAPHIC RESOLUTION

The 148-passenger *National Geographic Endurance* and her sister ship, *National Geographic Resolution*, are in a class of their own. Informed by 55+ years of polar experience, these state-of-the-art, highest ice-class vessels get you closer to the world's most remote places for the ultimate expedition experience—delivered in supreme comfort and stability.

NATIONAL GEOGRAPHIC EXPLORER

With a storied history working in Norway's famed Coastal Express, the 138-passenger flagship *National Geographic Explorer* was completely rebuilt to sail the poles. With an ice-strengthened hull, well-appointed shared spaces and newly renovated suites featuring in-room exploration tools, this extraordinary ship is devoted to discovery—every detail revealing a dedication to curiosity and wonder.

LIFE ON BOARD

Each ship in the National Geographic-Lindblad Expeditions fleet is a destination in its own right, featuring amenities to ensure that your time on board is equally rewarding as your time on shore—from the polar-inspired art to the culinary delights and soothing spa treatments sourced from your surroundings.

Video

All guests aboard *National Geographic Endurance* and *National Geographic Resolution* are invited to the Cook's Nook to experience a special zero-waste tasting menu.

WELLNESS AT SEA

Greet the day with a sunrise yoga session or unwind in the spa with a massage, serenaded by the sound of soothing waves. Dedicated wellness spaces—including treatment rooms, saunas, fitness centers and more—encourage travelers to tap into the natural rhythms of their surroundings. Treatments are tailored to your individual needs, and each fully accredited wellness specialist is also a licensed massage therapist.

THE ART OF EXPEDITION TRAVEL

The interiors of *National Geographic Endurance* and *National Geographic Resolution* tell the stories of Antarctica from a different angle—through the eyes of artists who find inspiration in the ice. Artist Zaria Forman curated the first-ever ship-based exhibitions of visual and auditory works, created to express the fragile beauty of the polar regions. To learn more, visit expeditions.com/art.

SAVOR FRESH AND INNOVATIVE FARE

Your ship's executive chef designs unique and innovative menus that feature sustainably sourced dishes inspired by the regions you visit, as well as guided wine tastings to enhance your culinary experience. On *National Geographic Resolution* and *National Geographic Endurance*, every guest is invited to a special private dinner that features a refined seven-course tasting menu, complete with wine pairings.

A DAY IN THE LIFE

ON EXPEDITION IN ANTARCTICA

As the travel season begins in Antarctica, the continent's slumbering landscapes spring to life with vibrant wildlife and shifting icescapes. Each day here is different, and when you explore on a voyage with National Geographic-Lindblad Expeditions, there is always a variety of enticing adventures on offer—whether you wish to pack your day with active excursions or prefer more leisurely explorations.

Wake Up to Icy Views

Early risers can head to the bow and soak in the icy stillness of the seventh continent before the rest of the ship awakens. You're likely to meet a naturalist, who will aid in the ongoing search for wildlife, including killer whales, humpbacks and wandering albatrosses. Or opt to greet the day with a morning stretch session led by the wellness specialist.

Breakfast at the Bottom of the World

A fresh breakfast awaits: bespoke omelets, a rainbow of fruits, fresh pastries and much more. Every delicious meal is complemented by stunning views of Antarctica's volcanic shores through the panoramic windows of the dining room.

Gear Up for Adventure

Opt for one or several activities at the morning landing site. Climb a nearby slope to the edge of a glistening glacier, then take a leisurely walk to a gentoo penguin colony, where a naturalist interprets each enchanting behavior. Kayakers will set off from the ship or shore, paddling amid the iridescent icebergs that float through nature's sculpture garden.

Downtime: Naturalist Talks and Photo Tips

After lunch on board, join a naturalist or certified photo instructor in the lounge for an engaging talk or a photo tips session. Or take advantage of the ship's amenities: read up on Ernest Shackleton in the library, test out high-tech cameras and lenses from the complimentary OM System Photo Gear Locker or visit the open Bridge to chat with the captain about the unique challenges of polar navigation.

Afternoon in the Wild

In Antarctica, you'll discover something unexpected daily. In the early season, the captain may "park" the ship in the fast ice so you can walk across the frozen sea. Or opt to take the polar plunge, followed by warm blankets and steaming hot chocolate provided by the crew.

Ready for Recap

Meet in the lounge over drinks and hors d'oeuvres, and settle in for the daily recap, featuring presentations and slideshows on the day's adventures. You may hear from an undersea specialist, who shares footage of the weird and wonderful creatures beneath the water's surface. Cap off the gathering by previewing tomorrow's itinerary, packed with new experiences at the ends of the Earth.

WHAT TO EXPECT SEASONS IN ANTARCTICA

No matter when you visit, the grandeur of Antarctica is always on display—but every month is unique in terms of weather and wildlife. This guide reveals what makes each special.

NOVEMBER

November is a photographer's dream, with big icebergs, stunning sunsets, landscapes draped in virgin snow and hardly another ship in sight. When conditions are just right, the captain can "park" in the frozen fast ice, allowing guests to disembark on virgin snow to hike, snowshoe or even cross-country ski in total tranquility. Penguin colonies are a flurry of courtship activity—watch for flirty flipper-waving and clashes over nesting space.

DECEMBER

With summer's arrival, the days stretch and temperatures rise above freezing. It's an excellent month for wildlife. Orcas and humpbacks abound, and penguin rookeries are bustling in preparation for the mid-month chick hatching. Clear waters allow the undersea specialists to document an array of fascinating crustaceans, anemones and other creatures so guests can explore the frigid underwater realm from the comfort of the ship.

JANUARY

The warmer weather of January triggers glaciers to calve thunderous chunks of ice into Antarctic seas. Newborn penguins are balls of fluff, chasing down their parents for food. Adventurous chicks also mean active predators, particularly the prehistoric-looking leopard seal. Leopard, crabeater and Weddell seals have birthed their doe-eyed pups, which can be spotted snoozing on ice floes or bobbing between bergy bits.

FEBRUARY

After two months of near-endless summer sun, pack ice weakens by February, expanding exploration to lower latitudes. February is prime time for whales—minke, sperm, southern right and humpback whales are all abundant. Without the pressing need to hunt, these highly intelligent cetaceans can flex their curiosity—sometimes swimming right up to the boat. Penguins are busy feeding their chicks before they fledge into the ocean.

Video

Naturalist Rich Kirchner describes each Antarctic travel month in detail.

ANTARCTICA WITH FAMILY

THE ULTIMATE EXPEDITION EXPERIENCE

Antarctica brims with unique sights that light up the faces of young travelers and seasoned explorers alike. Colossal icebergs float past your cabin window, penguins skitter across snowy beaches and curious whales may even swim alongside your Zodiac. Imagine sharing these incredible experiences with the people you cherish most, on an unforgettable, family-friendly voyage to the ends of the Earth.

EXPLORATION FOR EVERY GENERATION

Antarctic expeditions have something for everyone: the grade schooler fascinated by penguins and their playful antics, the teenager or college grad with a newfound interest in the climate sciences and the grandparent who wants to watch intricate ice sculptures drift past the ship's bow. Activities range from leisurely to invigorating so that every member of your group can make the most of their Antarctic experience.

NURTURING YOUNG EXPLORERS

On most Antarctic voyages,* kids and teens can participate in the National Geographic Global Explorers program, which teaches travelers 18 and under to explore like scientists and tell the stories of Antarctica through photographs, videos, drawings and more. Throughout the journey, young adventurers are led by certified field educators—inspiring mentors who are experts at using Antarctica as a natural classroom.

*The National Geographic Global Explorers program is offered on the following voyages: *Voyage to Antarctica*; *Quest for the Antarctic Circle*; and all Antarctica Direct itineraries, which fly over the Drake Passage.

EXPLORE WITH INSPIRING EXPERTS

Traveling with world-class photographers, scientists and conservationists transforms an ordinary cruise into an extraordinary experience. Every voyage in Antarctica is accompanied by a National Geographic photographer, and select departures are joined by a National Geographic Destination Expert or special guest speaker with in-depth knowledge on the region. Meet some of the experts sailing on upcoming Antarctic voyages.

Mensun Bound, Maritime Archaeologist

Known as the “Indiana Jones of the Deep,” Falkland Islands native Mensun Bound has conducted shipwreck excavations across the globe. In 2022, he was director of exploration on the expedition team that famously discovered Shackleton’s *Endurance* in the Weddell Sea, and he subsequently wrote *The Ship Beneath the Ice* to document the experience. (See page 27.)

Video

Mensun Bound discusses growing up in the Falkland Islands and his work to recover Shackleton’s lost ship.

Erin Pettit, Glaciologist and National Geographic Emerging Explorer

For nearly three decades, Erin Pettit has studied the flow of giant ice caps and mountain glaciers. She has embarked on more than a dozen Antarctic expeditions to illuminate the relationship between climate change, rising sea levels and the collapse of ice shelves. (See page 26.)

Martin Gregus, National Geographic Photographer

Born and raised in Slovakia, Martin Gregus is an internationally acclaimed wildlife photographer and cinematographer. He has captured images on all seven continents and was twice named Wildlife Photographer of the Year by the Natural History Museum in London. (See page 26.)

David Doubilet & Jennifer Hayes, National Geographic Photographers

Husband and wife team David Doubilet and Jennifer Hayes have photographed and explored oceanic realms and their fascinating sea creatures in places such as Japan, Greenland and Antarctica while on assignment for National Geographic. (See page 31.)

Rich Reid, National Geographic Photographer

Director of the fleet's expedition photography program, Rich Reid is an award-winning photographer and filmmaker who specializes in environmental imagery. He was a finalist for the BBC Wildlife Photographer of the Year for his time-lapse video documenting forest fire ecology. (See page 26.)

ANTARCTICA, PATAGONIA AND THE SOUTH ATLANTIC ISLES

Venturing to the bottom of the globe is a chance to discover the world's last great wildernesses, where whales swim, penguins flock and albatrosses soar. Discover Antarctica, Patagonia or the wild isles of the South Atlantic on voyages informed by more than five decades of sailing these untamed waters.
