# Experience Authentic and Immersive Exploration

Over the course of a nearly 20-year partnership, Lindblad Expeditions and National Geographic have offered meaningful travel experiences that ignite a passion for the planet and its people. From the moment you join one of our Canada expeditions, you access all the resources that stem from this shared legacy in exploration.

## World-Class Expedition Ships

The small, nimble ships in the Lindblad Expeditions-National Geographic fleet are purpose-built to take travelers to Canada's wildest corners, from narrow channels glittering with icebergs to secluded bays where grizzlies fish and forage. Each vessel is stocked with first-rate exploration tools, including Zodiacs and kayaks that allow us to sail without being dependent on ports or piers.

## The Most Experienced Team

Every member of our staff—from our naturalists, photographers, and expedition leaders to our crew working behind the scenes—is committed to ensuring our guests have an unforgettable experience. Many are veteran guides who have worked with us for decades, chosen for their extensive knowledge of subjects like geology, wildlife biology, and life and climate sciences. Inspiring guest speakers, including National Geographic Experts, also join select voyage.

---

**Global Voices:** Visit [expeditions.com/guestspeakers](http://expeditions.com/guestspeakers) to see the full roster of speakers joining upcoming voyages.

## Take Great Photos With the Pros

 **NATIONAL GEOGRAPHIC** A Lindblad Expeditions-National Geographic certified photo instructor (CPI) joins each voyage to assist travelers with everything from camera settings to composition. Every guest—from iPhone camera users to advanced hobbyists—can stand side by side with top photographers, pick up tips in the field, and return home with the photos of a lifetime.

 With the complimentary OM System Photo Gear Locker, you can field test new lenses, camera bodies, and more.

## Actively Explore Every Day

Our Canadian itineraries feature a range of activities designed to immerse you in the wilds of the Great White North. Paddle a kayak past a sculpted iceberg, hike through an

old-growth rainforest, or take leisurely photo walks

through colorful fishing villages. No matter the destination, you will be able to explore your way—and at your own pace—every day.

---

**All In:** *Activities and excursions are always included in the voyage price.*

## In-Depth Undersea Program

As part of our in-depth undersea program, developed in partnership with National Geographic, an undersea specialist uses a high-definition video camera and deploys a Remotely Operated Vehicle (ROV) that allows us to peer through Canada's steely waters—up to 1,000 feet beneath the surface.

Footage is shared during daily recaps,

inviting guests to witness surprising and unexpectedly colorful sea life from the comfort of our ship.

## Commitment to Conservation

Sustainability is at the heart of our mission, and you can travel with

peace of mind, knowing every

voyage we sail gives back to the places we explore. Together with our guests, we have contributed nearly \$18 million to protect and restore marine and coastal habitats through the Lindblad-National Geographic Fund.

# Uncommon Canada

## *Unique Expedition Experiences*

*Our Canadian voyages are expertly curated to help you uncover the secret side of America's neighbor to the north. Alongside our knowledgeable expedition teams and handpicked local experts, discover little-known gems, like the geological marvels of Gros Morne National Park, and enjoy exclusive experiences, such as a visit to a traditional carving workshop in Haida Gwaii and a private reception at an art gallery in Victoria.*

### **Set Out on a Coastal Safari**

Encounter Canada's incredible profusion of wildlife—including multiple types of bears and whales—and seek out some of the country's rarest species, such as narwhals and the white Kermode spirit bear.

### **Follow in the Wake of Arctic Explorers**

Embark on one of the planet's most legendary expeditions as you transit the remote Northwest Passage, and hear dramatic stories of the adventurers who sought out this icy frontier.

### **Channel the Viking Spirit**

Explore the 11th-century remains of the Viking village at L'Anse aux Meadows, the first and only known Viking settlement in North America and a UNESCO World Heritage site.

### **Kayak Among Arctic Icebergs**

Paddle beneath soaring, iridescent icebergs in a soul-stirring experience that could bring you within sight of whales foraging for krill or seals hauled out on ice floes.

### **Discover a Nearly Lost First Nations Culture**

Enjoy rare access while learning about Haida Gwaii's ancient culture from Haida interpreters and visiting with master Haida carvers in their workshop to hear the stories behind their art.

### **Hike Through an Ancient Rainforest**

Venture into remote, roadless corners of the Great Bear Rainforest on foot, hiking beneath 1,000-year-old Sitka spruce and western red cedar.

### **Witness a Rare Geological Wonder**

Hike the Tablelands in Gros Morne National Park, one of the few places in the world where you can witness the Earth's mantle, typically hidden miles beneath the crust.

### **Enjoy an Exclusive Gallery Experience**

In lovely Victoria, enjoy a private reception at The Bateman Gallery, which exhibits an extensive collection of wildlife paintings by renowned conservationist and artist Robert Bateman.

# Life on Board

*Each ship in the Lindblad Expeditions-National Geographic fleet is a destination in its own right, featuring superior amenities and cultural experiences to ensure that your time onboard is equally rewarding as your time on shore. Every aspect of your experience aboard our fleet is an opportunity to connect with and celebrate the places you explore—from the Arctic-inspired art in our roving galleries to the culinary delights and soothing spa treatments sourced from our surroundings.*

## Updated Suites and New Amenities Package

In May 2023, *National Geographic Explorer* will set sail with newly enhanced suites, updated to reflect the sleek, Scandinavian aesthetic of our polar fleet. Settle into one of these spacious cabins and enjoy special new features like the Command Center, complete with a collection of exploration tools—including a barometer and a National Geographic Atlas. Guests who book suites on any of our expedition ships will also enjoy our new amenities package, which includes an in-room espresso maker, priority booking for spa treatments and igloo stays (select vessels), complimentary laundry, and other perks. To learn more, see page 35.

## Savor the Flavors of Your Destination

Sampling local cuisine is a highlight of any voyage, and we take great care to bring the flavors of coastal Canada to the meals you enjoy on board. Our executive chefs design unique and innovative menus that feature sustainably sourced dishes from or inspired by the regions you visit, as well as wine pairings and guided tastings to enhance your culinary experience. Special onshore culinary experiences, like a mussels tasting on Cape Breton and berry picking in Labrador's coastal bogs, invite guests to forge even deeper connections with local culinary traditions.

## Indulge in Our Wellness Program

Greet the day with a sunrise yoga session or unwind in the spa with a massage, serenaded by the sound of soothing waves. Our dedicated wellness spaces—including treatment rooms, saunas, fitness centers, and more—encourage travelers to tap into the natural rhythms of their surroundings. Treatments are tailored to your individual needs, and each of our fully accredited wellness specialists is also a licensed massage therapist.

*Safari at Sea*

# The Wildlife of Coastal Canada

*Bound by rocky cliffs to the east, misty rainforests to the west, and straits of snow and ice to the far north, the world's longest national shoreline is an incredible assortment of scenic backdrops with a motley menagerie of wildlife to match—from surly and burly muskoxen to fantastical narwhals. Venture to the most remote parts of coastal Canada for a wildlife safari unlike any other amid untrammled lands that are as wild as the Serengeti.*

### **Polar Bears | High Arctic**

With their enhanced hunting abilities and fur that blends into their icy environment, polar bears are the Arctic's apex predator. They spend up to 20 percent of their day hunting the calorie-loaded ringed seal.

### **Black Bears | British Columbia**

Despite their name, black bears can be brown, cinnamon, or, in the case of the rare Kermode variety, even white. This elusive "spirit bear" gets its unusual color from a recessive gene.

### **Arctic Terns | High Arctic**

Arguably the most spectacular migrant on the planet, these birds fly more than 900,000 miles annually from pole to pole in search of 24 hours of daylight, arriving in the Arctic for the summer breeding season.

### **Orcas | British Columbia**

Orcas, or killer whales, are in fact the largest of the oceanic dolphin family. These social creatures travel in pods known as matriline, which have complex social hierarchies with the elder females at the top.

### **Atlantic Walruses | High Arctic**

Blubbery and broad, these mustachioed giants are almost as wide as they are tall—the second largest pinnipeds after elephant seals. They are often found gathered in impressive group haul-outs on shore.

### **Humpback Whales | British Columbia, Maritimes, High Arctic**

At their summer feeding grounds, humpbacks gorge on krill, plankton, and small fish—up to a ton and a half per day. Those reserves sustain them through a six-month fast, when energy is focused on migrating and breeding.

### **Steller Sea Lions | British Columbia**

The Steller sea lion is the largest of the species, with males weighing as much as 2,500 pounds. Their "roaring" sounds drown out the "barks" of their smaller cousin, the California sea lion.

### **Narwhals | High Arctic**

Narwhals can dive more than a mile beneath the water's surface, utilizing adaptations like compressible ribs to help them withstand immense underwater pressure. These deep dives are one reason sightings are extremely rare.

### **Beluga Whales | High Arctic**

Belugas are among the most recognizable whale species due to their light coloring, rounded foreheads, and ability to move their necks. They travel in groups and communicate through clicks, whistles, and squeals.

### **Muskoxen | High Arctic**

Long-horned and massive bodied, the muskox's name comes from the strong "musk" scent males emit during mating season. Their shaggy coats keep them insulated; in warmer months an undercoat sheds to keep them cool.

## *National Geographic Endurance & National Geographic Resolution*

**CAPACITY:** 138 guests in 76 outside cabins and suites.

**REGISTRY:** Bahamas. **OVERALL LENGTH:** 406 feet.

*National Geographic Endurance* and *National Geographic Resolution* are next-generation expedition ships, purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.

**PUBLIC AREAS:** Observation lounge with bar, three dining areas, gym, wellness area, infinity-style outdoor hot tubs, library, main lounge with full service bar, 24-hour beverage, state-of-the-art facilities for films, slideshows and presentations, and a photo workshop area; plus, an expedition base with lockers for expedition gear, and an “open Bridge” for access to our captain, officers and the art of navigation.

**MEALS:** Two restaurants, featuring local, sustainable choices and unassigned seating for flexible, inclusive dining; plus a Chef’s table for intimate, small group dining. Main restaurant has 270° views, and the Observation deck restaurant features lighter, made-to-order fare.

**CABINS:** All cabins face outside with large windows, private facilities and climate controls. 59 cabins have balconies. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers.

**EXPEDITION EQUIPMENT:** Zodiacs, kayaks, snowshoes, cross-country skis, Remotely Operated Vehicle (ROV) and underwater video camera for unique access to polar marine world, hydrophone, aerial remote-controlled camera, video microscope, and OM System Photo Gear Locker.

**SPECIAL FEATURES:** A full-time doctor, undersea specialist, National Geographic photography expert, Lindblad Expeditions-National Geographic certified photo instructor, an internet cafe and laundry.

# New! Arctic Parka and Jacket

We are excited to share our new parka and jacket designs for our Arctic and sub-Arctic expeditions. Based on our coveted Antarctica parka, we designed a vintage look and feel with contemporary tech details for maximum polar functionality and comfort. Our jacket, for the balmier climes, is a wind and waterproof shell that is super sleek. Information

about which option is available to you can be found in your online documents portal along with sizing.

## Self-Disinfecting Ships

Lindblad Expeditions became the first self-disinfecting fleet with the rollout of the ACT CleanCoat™ system in 2019. This photocatalytic cleaning process

activates when illuminated, continuously breaking down unwanted microbes such as bacteria, viruses, mold, and airborne allergens. The positive environmental impacts of this non-toxic, chemical-free system are many: less plastic in the supply chain and waste stream, and more than one million gallons of water saved annually. The system lowers our carbon footprint and creates a cleaner, healthier shipboard environment for guests and crew alike.
